

Obstacle courses may be set up in a gym, on grass or on pavement as in this closed off parking lot.

Throughput is about 2 children every 10 seconds! Everyone gets more turns, with less waiting. Ride can handle kids through adults. Great for team building and physical education!

Setup looks impressive, you look clever we keep it all moving!

Perfect for any school, camp, church, temple, company or large group. Children sit in chairs and move 'conveyor belt' style forward till they have their turn. Calm, organized, safe.
